

**Is your church ready for guests?
You only get one chance to make a first impression...**

- People do not join a church without visiting it first
- Visitors represent 100% of your church growth
- Most members think their church is friendly, most guests do not
- A first time guest begins to determine if they will return to your church within the first 10 minutes of being on the church campus
- Church websites are a tremendous tool for ministry

“After having upgraded our Guest Ministries about a year ago, it was very helpful to bring Jan in for a training event and the mystery guest audit. Her presentation provided a lot of affirmation of the efforts our team had made. It also helped uncover some of our “blind spots,” along with providing some specific action steps. The entire presentation was done in an encouraging and motivating spirit.”
Rev. Robert Stutes
Bellville UMC

Begin the year by seeing your church through the eyes of first time guests!

Arrange for a welcoming training to be held at your church and involve more of your church members in the welcoming lifestyle of your congregation. Perhaps you have begun the welcoming congregation certification program and your ministry teams need to be rejuvenated and refocused. Perhaps your congregation has yet to begin the welcoming certification ó today is the day to begin that educational and motivational journey.

Let **Grow Church Now** help by conducting a campus assessment, guest audit, and **welcoming ministry training seminar**.

Additional training modules are available, and can be written to meet your specific needs and requirements.

- **“In Motion With Change,”** training module reminds us that change is constant, and yet we often continue to be surprised by it. Do you react to change, or are you proactive with change? Discover the change agents in your congregation.
- **“Sharing Your Faith Story,”** understands that you are prepared to welcome guests and will motivate creative “inviting” of guests.

Choose and confirm a second, third, or fourth quarter 2009 training date
by February 20, and receive a
